<p><b>Summary of Content:</b> This method is geared toward the advanced beginner and intermediate level learner of French. The <u>textbook</u> is organized around practical linguistic situations in both everyday life and the work environment. Each of the ten units focuses on a theme (from traveling to going to the restaurant, or looking for a job) and is divided in four lessons with each a specific learning goal presented through a document (dialogue or text), several exercises and grammatical notes. The emphasis of the book is to enhance the student communication skills through informal or formal situations of interaction. Most lessons have comprehension exercises based on recorded dialogs on the CD. Transcriptions of the audio exercises are provided at the end of the book. The book also contains a Grammar section and a lexicon (with sample sentences). The <u>student's exercise book</u> complements the book with additional grammar and vocabulary exercises. A CD-ROM and a pedagogical guide are also available for purchase from the publisher. Written by the same author, "Affaires.com" is the</p>	

corresponding title for intermediate or advanced learners (B1/B2 level).

**Level:** Basic User (level 2) to Independent User (level 1): A2, B1

**Public:** FLE learners, Adults

**Teaching suggestions:** Parts of this book could easily complement some of the units of the Connexions 1 and 2 for the practical situations (everything from making an appointment to ordering in the restaurant, or writing a CV for example). However, this is a textbook on its own, and could be an alternative to Connexions for private classes.
